CREATURE DESIGN

The flagellant is a gigantic creature that paradoxically manages to blend into these dark forests of immense trees. It doesn't move very often, waiting for its preys to come to it before grabbing them with its agile tentacles. In a vision of horror, the victim is lifted off the ground before being thrown into the gastric juices of the flagellant's open stomach. It then closes, and the creature freezes again, waiting for other unwary victims.

CHARACTER DESIGN

Benjamin, an ordinary student, finds his life turned upside down when his best friend's girlfriend is violently attacked and the culprits escape justice. In his quest for revenge, he decides to use a sword as the embodiment of justice, but soon realises its brutality and turns to a revolver as a more accessible weapon.

Under the guise of a normal student, Benjamin leads a double life, tormented by his actions and hunted by the criminal group he is targeting. His quest for revenge turns his life into a living hell.
